

Indicative UFB rollout timetable

The timing and order of the UFB rollout is based on workflow scheduling by UFB deployment partners and subject to change. It is in part based on the availability of contractors, as well as the need to build new network contiguously wherever possible.

Crown Fibre Holdings will be working with partners to carry out more detailed planning over the coming months. Working with UFB deployment partners, we will achieve nationwide completion of the UFB programme by the end of 2022.

City / town / area	Partner	Premises covered	Deployment phase	Forecast completion date*
